EDUCATION

B.S. in Computer Science, Minor in Data Science | University of Rhode Island

Kingston, RI • Expected May 2028

- ▶ Specialization: Artificial Intelligence | GPA: 3.9
- ▶ Coursework: Data Structures, Algorithms, Software Engineering, Applied Machine Learning, Linear Algebra

EXPERIENCE

Software Engineering Intern | University of Rhode Island

Kingston, RI • May 2026 – Aug 2026

- ▶ Extended and refactored a Python-based automation bot, adding new features and overhauling old functionality; tested locally on a self-hosted instance before deploying to production via GitHub
- ▶ Integrated a Retrieval-Augmented Generation (RAG) pipeline utilizing AnythingLLM, enabling natural language query processing against proprietary data sources.

IT Student Consultant | URI IT Service Desk

Kingston, RI • Oct 2025 – Present

- ▶ Provide technical support to students and faculty across URI's campus
- ▶ Resolve hardware and software issues using Microsoft Azure, ServiceNow, and proprietary campus systems
- ▶ Maintain detailed ticket records and escalate complex issues through proper channels

Barista / Closing Shift Lead | Phantom Farms

Cumberland, RI • Mar 2024 – Sep 2026

- ▶ Deliver high-quality customer service in a fast-paced retail and food service environment
- ▶ Prepare beverages and food items to order; maintain cleanliness and safety standards
- ▶ Responsible for end-of-day closing procedures and daily cash deposit reconciliation

Technology Intern | New England Institute of Technology

East Greenwich, RI • Jul 2024 – Aug 2024

- ▶ Assembled and repaired desktop and laptop computers for institutional use
- ▶ Renovated multiple classrooms by installing updated hardware and peripheral equipment

PROJECTS

Super Simple Stocks | Hackathon Win - URI / Yconic / MLH

Kingston, RI • Feb 2026

- ▶ Won Best Use of Gemini API at a competitive hackathon hosted at the University of Rhode Island
- ▶ Used Google's Gemini API with Finnhub's financial data API in a multi-agent architecture to build an AI-powered investing tool
- ▶ Collaborated with a team to design, develop, and demo a working product in under 36 hours

Roguewordle | Personal Project

- ▶ Designed and built a roguelike variant of the popular word game Wordle using HTML, CSS, and JavaScript
- ▶ Deployed the application via GitHub Pages with a custom domain configuration
